## TRINCO™ MASTER MODEL 48 / BP CABINET

with Trinco™ BP Dust Collector. Designed for intermittent blasting operations. The Trinco™ BP Dust Collector vacuums the dust and contamination from the cabinet. Media is recycled from the gun system to the hopper and back to the gun system.

- Ruggedly built of 14 Gauge welded steel
- Double floor - 1/8" Expandex steel plus Carbon screen
- Trinco™ Tungsten carbide nozzle
- Trinco™ safety enclosed floor valve blasting control
- Trinco™ fluorescent lighting to eliminate shadows and minimize energy usage
- Trinco™ large 12"x 24" safety glass window for excellent visibility and increased operator efficiency

### OPTIONAL ACCESSORIES:

- Water Filter
- Turntable
- Blow Off Gun
- Spare parts package
- Abrasives

#### Inside

Depth	24"
Width	48"
Height	23"

#### Overall

Depth	25"
Width	52"
Height	64"

#### Door Openings

Three (3)	
Flip Opening Lid-Type	48" x 13"
Door on each Side	17" x 16"

#### Shipping Weight

Approximately 380 Lbs.

*Also available with Trinco™ 400 CFM Dust Collector or Abrasive Separator*

### TRINCO™ DRY BLAST APPLICATIONS

The applications of Trinco™ Cabinets are virtually limitless - cleaning, deburring, decorating, deflashing, etching, finishing, honing, peening, etc. All of these uses and more can be accomplished easily with quick sweeps of the gun nozzle. Scale, corrosion, old paint and other surface materials are removed in minutes leaving metal surfaces free of foreign matter and contamination. Even tough mill scale is quickly and efficiently removed.

The usual operating pressure for the Trinco™ Dry Blast Cabinets is 85 PSI. The equipment utilizes a variety of abrasives such as Trin Mixes™, glass beads, aluminum oxide, silicon carbide, nut shells, etc. A multitude of finishes are possible ranging from a micro-finish to a coarse-grade finish depending upon the specific media used. Trinco™ Cabinets can apply the proper abrasive to provide the desired finish for each specific application.
